

**LABORATORY ANIMAL REQUISITION FORM**

Only for Animal Facility:			
Requisition #	ARF		
Receiving date			
ARF comment, if any			
Signature: (Received by)		Approved signature & date	
Delivered on		Animal received by	

- Do you have any institutional training on animal ethics to conduct this work on animal model?       Yes       No
- If yes, from where did you complete the training?
  - icddr,b,  Online     Others.....
- If no, how you will conduct your research work under compliance of animal ethics?  
.....

**1. Project / Research / Thesis Title:**

**2. Researcher/Student information :**

- a. Name :
- b. Designation / Level of Study :
- c. Dept/Div/Lab :
- d. University/Org.:
- e. Mobile No. :
- f. Email ID :

**3. Duration of the project/Study:**

**4. Animals/ Test required**

- a. Species/Common name/ Test Name :
- b. Age/weight/size      :
- c. Gender                    :
- d. Number to be used    :

**5. Rationale for animal usage**

- Mention clearly why the experiment is required to be performed on animal model?

**6. Animal transportation method :**

- Animal safety and wellbeing must be ensured during animal transportation. The process of transportation should provide an appropriate level of animal bio-security while minimizing microbial contamination, protecting animal against environmental extremes through well-ventilated environment with provisions for proper caging, bedding, feed and water shall be used during transportation of the laboratory animals.

**7. Methods of disposal post-experimentation**

- a. Will the animals be sacrificed following the experiment? Yes  No

If Yes, indicate the method to be used:.....

If No, indicate what will be done with the animals.....

- b. After sacrificed how the carcass will be disposed?

.....

**RESEARCHER'S DECLARATION**

1. I certify that I have reviewed the pertinent scientific literature and didn't find valid alternative in vitro model.
2. I hereby ensure that the research proposal herein is not unnecessarily duplicative of previously reported research.
3. I certify that I am qualified and have experience in the experimentation on animals.
4. I certify that the procedure described herein will cause less pain to the animals & if yes, please mention.
5. I will obtain approval from the Research/Ethics Committee before initiating the study and notify any significant changes in this study.
6. I hereby ensure that the research or test findings/result should not be used for publicity or marketing purposes.
7. I firmly declare that the information provided herein is authentic and I will abide by all the instructions at all the time.

**Signature:**

Researcher / Student
